

## Fine Dining Focus:

### Braddock's Tavern & Bassetts Ice Cream

## PERFECT Together!

Banana Foster and Raspberry Truffle

According to Chef Nicki Lauria, "it's **all** about food and people," and that philosophy mirrors the care and preparation that goes into every meal served at this month's featured fine dining establishment, [Braddock's Tavern](#) in Medford, New Jersey.

The relationship between Braddock's Tavern and Bassetts Ice Cream goes back a long way. In fact, company president Michael Strange remembers making deliveries to Braddock's Tavern soon after he started working for the company full-time in July, 1983. Now that's a long-term relationship!

Recently, Alex Bassett Strange, 6th generation and account executive with Bassetts Ice Cream, visited with Braddock's Chef Nicki to learn how this master chef incorporates our ice cream into some lusciously tasteful desserts.

When asked what his approach is to creating a unique menu, Chef Nicki replied, "I think about it, even when I don't think about it. I might be out with friends or even asleep when an idea comes to me. I just stop and jot it down." He continued, "I love the ability to make someone's day with a great meal."

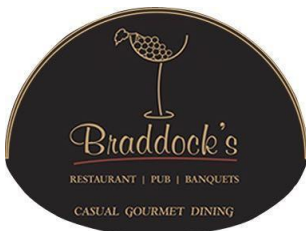

Chef Nicki's Cheesecake is one of the most popular dessert options available at Braddock's Tavern and our spoon-first plunge into this elegantly plated treat was no disappointment. His signature Vanilla Bean Cheesecake was delightfully paired with a healthy-sized scoop of Bassetts Vanilla ice cream to create a taste sensation.

Vanilla Bean Cheesecake with Vanilla

Alex also sampled a gluten-free dessert option which spared no expense in the richness category; Banana Foster. Chef Nicki paired this yummy treat with a scoop of Bassetts Raspberry Truffle ice cream. Wow! You just have to try this!

Head on over to Braddock's Tavern for a dining experience you will savor for a very long time and remember, save room for dessert!
